WORSHIP TEAM

Pursuing Excellence in Ministry: Giving God What He Deserves

This teaching is what Michael enjoys speaking on at the annual, See His Glory Worship & Arts Conference. Michael draws from the Word of God and life experiences to underscore the importance of serving God and others with a spirit of excellence. This teaching is available on CD!

Building a Solid Worship Team and Choir

Having a "solid" foundation is essential for building a ministry! This teaching will help you learn the fundamentals of forming your worship team and choir, and be prepared for effective ministry that honors God.

The Role of the Worship Leader

Worship leaders have the responsibility of leading worship, communicating with the band and congregation all at the same time. You will learn what it takes to recruit people, work with a worship-set, lead Spirit-led worship, and the essentials for nurturing your team.

The Ministry of the Worship Team and Choir

An effective Worship Team must have certain criteria for doing ministry in the house of the Lord. This teaching explores the necessary requirements, spiritual disciplines, and purpose of serving on the team.

Leading Worship and Releasing the Prophetic Song

As worship leaders and music ministers, we spend hours learning new material, conducting rehearsals and preparing our worship teams and choirs to minister each Sunday. However, our planning *may* not include God's *agenda* for the service! Learn how to *hear* the voice of God as a psalmist and release the prophetic song God gives you.

Vocal Assessment for Singers

This class will help you identify your strengths and weaknesses and offer solutions for improving your voice so you can sing with confidence.

TECHNICAL

Sanctuary Sound: The Fundamentals of Audio

Quality sound doesn't just happen. The goal of the sound engineer is to produce sound that is intelligible and comfortable to the listening audience. Learn how to mix vocals and instruments, conduct sound-checks, handle microphone feedback, and use signal processing devices to enhance your sound system.

Utilizing Worship Presentation Software

Having the pastor's message and song lyrics projected gives the viewing audience an experience that is inviting and visually appealing. Learn the basics of choosing the right software and enjoy using it to meet your needs.
